COMPLETE SPECIFICATION

Hair Oil

- We, BERNER OSAKEYHTIO, of S. Kajen 4, Helsingfors, Finland, a corporate body, organised and working according to the laws of Finland, do hereby declare the invention, for which we pray that a patent may be granted to us, and the method by which it is to be performed, to be particularly described in and by the following statement:—
- This invention relates to hair oil and has as object the provision of such an oil having hair growth promoting properties.
- It is well known to add to hair oils, which may be composed essentially of mineral and/or vegetable oil including petroleum oils, olive oil, almond oil and castor oil, with or without alcohol, various substances supposed to promote the growth of hair and/or the formation of hair pigments, such substances including sulphur, cholesterol, lecithin and cantharidin.
- It has been proposed to mix hair oils with vitamins or hormones to strengthen the hair. It is, however, a known matter of fact that none of these generally used hair oils have that efficiency which really is wanted.
- | | | | | |
|------------------|---|---|---|------|
| Panthenol | - | - | - | 0.3 |
| alpha Tocopherol | - | - | - | 0.05 |
| Macassar oil | - | - | - | 60 |
| Jecor oil | - | - | - | 50 |
| Olive oil | - | - | - | 100 |
| Castor oil | - | - | - | 30 |
- The here above described hair oil is used so that it is rubbed into the scalp in a warmed up state, after which a scarf or cloth of suitable material is bandaged about the head in order to allow the oil to penetrate into the scalp without disturbance as long as possible. After this procedure the hair must be washed and rinsed in the usual way. After a few oil treatments the hair will be showing quite a notable improvement as to its character. It will have obtained new life and become elastic, which can be proved already by the fact that grey hair is beginning to get back its normal colour.
1. A hair oil comprising ethyl alcohol and an oil, together with one or more forms of each of the vitamins E and B together with a follicular hormone.
2. A hair oil according to Claim 1, containing panthenol.
3. A hair oil according to Claim 1 or 2 containing panthenol.
4. A hair oil according to Claims 1, 2 or 3 in which additionally vitamins A and D are present.
5. A hair oil substantially as set forth in the foregoing example.
- | | | | | |
|-------------|---|---|---|-----|
| Petroleum | - | - | - | 50 |
| Rum | - | - | - | 60 |
| Folliculin | - | - | - | 0.1 |
| Cholesterol | - | - | - | 1.0 |
| Lecithin | - | - | - | 1.5 |
